

Many good reasons for students to join IKK gesund plus!

Better performance. More service.

Taking up studying in Germany often means for foreign students getting German health insurance too. You then have the opportunity to choose a health insurer. Choosing IKK gesund plus is a good decision as we offer an extensive range of medical care and friendly service at very good terms. We'll help to keep your head free for learning.

If you have enrolled as a student you are insured under German law unless you are entitled to any non-cash benefits under supranational or cross-national law. Taking up your studies requires that you submit proof that you are insured. IKK gesund plus will provide you with such proof.

Better performance.

- » all and any benefits provided by statutory health insurance in Germany
